

## ABBREVIATIONS

- A = Aided course. An "A" in Column K means this time was run on an aided course and is not eligible for a State Record. (See definition in the INTRODUCTION)
- FN = Foreign National. Non-U.S. citizens are given this designation in the State column of the Honor Roll.
- K = an asterisk (\*) in this Honor Roll column means that this time is the Kansas Resident Record.
- RACE C= Race Code. A short 6-digit or less identifier assigned to each race event. If more than one distance is run for that event, each distance may be given the same code.
- T.T. = Target Time. Target Times have been established for each age group by sex and distance. Any time achieved by a runner that equals or beats this T.T. is listed in the Primary Honor Roll or in the APPENDIX Log List. The APPENDIX shows all times except an individual's BEST TIME in that Age Group and distance. (For greater visibility in some age groups, times that do not attain this T.T. may be listed at the discretion of the State Statistician.)
- \* = (See K definition above)
- @ = This sign in the K column designates a relay time that is not eligible for State Records.
- P = Partial. In the list of races, a "p" following a year means that only partial results were received for that race in that year.
- LOG = A value in this column designates that this runner has achieved additional times that better the Target Time for that Age Group and distance. The first number indicates how many additional times are listed in the APPENDIX. The "A" after the number simply means to look in the APPENDIX. Also, times for the current year may have a dash followed by a number in this LOG column. That number indicates that this new time is only the 2<sup>nd</sup> or 3<sup>rd</sup> or 4<sup>th</sup>, etc. best time for that runner.
